

# CONQUER COLLARS

Our Conquer Collars feature Power-Lock Design and Laser-Engraved Logo and offer unmatched strength and durability. Pinched fingers or broken parts are no longer a concern. The impact resistant T-handle securely engages an aluminum bar-cam, for maximum clamping force. The body of each collar is constructed of lightweight yet sturdy anodized Aluminum, with Carbon Steel hardware and a plastic high-impact ABS knob.

- Anodized Aluminum
- Laser-engraved logo
- Power lock clamp design
