

# FEARLESS LIFTING BELT

Whether you are squatting or deadlifting several hundred pounds, use the HeroStrength® Fearless Weight Lifting Belt to increase the stability of your spine and reduce the compressive forces on it. Designed with steel hardware for easy, secure adjustments and a buckle guard to prevent loose clothing from catching on the belt. Measuring 5.9" inches wide across the back and tapering down to 2.5" inches wide across the front and sides, this belt is optimized for the needs of a "FEARLESS" Olympic Weight Lifter.

- 100% Tanned Leather
- Reinforced Stitching
- Maintains a high degree of support while reducing overall bulk of the belt
- Limits interference or accidental contact with the bar during lifts

Available in 4 convenient sizes

- Small: (Length: 37.4" inches x Width: 5.9"/2.5" inches)
